

FIRST COME FIRST SERVE

STUDENT GOVERNMENT MEMBER COMPARES THEIR SHOWDOWN LOTTERY EXPERIENCE TO A STUDENT'S

PHOTO BY CAMERON HOOD

"The lottery was actually really stressful because my entire Advisement was counting on me. We also got a pretty bad event cause we were the second to last Advisement. We were about to get cheer, but my Advisement teacher did not want cheer so he stepped in and got us charity instead."

"I was in charge of writing down each Advisement's pick for Showdown. Being a part of Student Government, you have a lot more leeway with the things that you can do and you actually get to participate by putting out your ideas that you want for the school."

BEGINNER'S LUCK: Aliyah Nomis '25 carves details into a piece of clay. This was her first ceramics class. "I create a couple of ideas before I create the project," Morris said. "If I don't like one, I scrap it and move onto the next."

A WORK OF ART

STUDENTS EXPLORE A VARIETY OF ART CLASSES

TIME TO CLIMB

THE ROCK WALL MAKES ADVENTURE EXPERIENCE FUN

PHOTO BY CAITLYN ALBORGHETTI

"I get to rock climb and hang out with my friends. A lot of people have taken this class multiple times, and I have heard really good things about Mr. [Ryan] Morken, so I decided to take it. Mr. Morken is so cool." KAI SKAER '25

PHOTO BY VINCENT KENDLE

"The spider web is my favorite obstacle because it closes together, so when you're climbing up it you have to spread the web open with your legs. It takes so much arm and core strength. When you complete it you feel very accomplished." SYDNEY RETALIA '26

PHOTO BY MADISON KAYLOR

"I either like doing the beam or the rock wall. This class actually helped me get rid of my fear of heights. I remember the first time I was in the class Mr. Morken made me do the beam, I was so scared. But after a couple of times I got the hang of it and I love heights now." OLIVIA TILLEY '26

CLAY GALORE: Aliyah Nomis '25 carefully sculpts her ceramics project on Aug. 23. Morris sculpted an animal into a pot for her netsuke project. "Ceramics is a really fun and cool class to take," Nomis said. "The thing I like is how freeing ceramics feels and it brings out the creative side of people, especially myself." **JEWELRY EXPERT:** Mrs. Amanda Kerr leans over to help a Jewelry I

student complete the project. The class used a variety of processes and materials, which made it unique compared to other art classes. "Jewelry is fun because we get to use heat and chemicals," Kerr said. "I recommend an art class to students because it teaches a different type of thinking. It uses a different part of the brain that allow students to show their creative thinking through art."

ART IS COOL BECAUSE IT ALLOWS ME TO EXPRESS MYSELF IN A FUNKY WAY. I WOULD RECOMMEND ART TO MY FRIENDS BECAUSE THEY LIKE TO BUILD THINGS SIMILAR TO ME."

ROLLING WITH HONORS STEPS TO EARNING AN ACADEMIC LETTER

COURSES

"To challenge myself last year, I took AP Statistics, AP Language and Composition, Spanish 3 and 4 and many more classes." SCARLETT BEERBOWER '24

MANAGE

"I managed my classes by trying to stay organized in each class and not get too overwhelmed by the work. I liked to stay on top of all my work so I wouldn't get stressed waiting until the last minute." CLAIRE JACOBSEN '24

STRUGGLE

"I had two full time jobs as well as managing these courses. Working and school while trying to maintain a social life is hard. Thankfully, I had a great counselor and friends to support me the whole time." KALIALANI VELA '24
