## A Moment With Addy

Addy Hamilton, a sixth grade student here at Sunset made a trip to Washington, DC to speak about a problem to congress. She spoke about peoples struggle to pay for dental care. She says "Its a problem many people have." Not any specific event made her do this, she just felt the importance of this issue and took action. She explained that doing this was nerve racking, but the outcome is that now people have a better chance of having dental care.
