In an era where life moves too quickly, we look towards the **MOMENTS** we make to encourage us in our next step towards something greater. From school dances to exam days, we focus on how this **MOMENTOUS** time shapes us as people. From freshmen to seniors, the hardships **MATTER** for personal growth, but the fact is we need to focus on the present. Through photos and the people we meet, we make **MEMORIES** that last a lifetime. The Class of 2024's President, Zoey Shean, recounts times throughout her four years that mattered most to her. "We see how much we've changed from freshman year and it's kind of scary because of so many big decisions you make in this time. But high school has helped get so many prepared for the real world so it is easier when the time comes," said Shean.

The greatest times are when you're young; why not document it?
