more than marching Having gotten up at 5am to perform live on television, Autum Fann (10), Chloe Whelan (09), Zora Young (11) and Jo Messner (10) take a break. The members of the marching band decided to enjoy the sunrise together while waiting for the next performance to start. *photo by kaiden hamilton.*

Sometimes it's hard to remember who we are. As individuals, we're still trying to figure it all out. We're students stressed with rigorous academics and challenging careers, overwhelmed with assignments and overloaded with work. Sometimes it's hard to remember that we don't have to know everything – but that's not a bad thing...

BLEED AREA: MOST OR ALL OF THIS AREA WILL NOT APPEAR ON THE FINISHED PAGE

We push ourselves to be greater than what we were yesterday because we get bored with monotony; when anything stays the same, it means that we're staying the same, too.

We celebrate individuals and the challenges they have overcome to get to where they are today, like Carmen De Tata and Steve Garner's classroom, decorated with articles from around the world.

We join new clubs like Chemistry Club made by Samantha Mantel (12), founded to shape the community around us by learning together.

And then we take a leap of faith, participating in novel programs at EPIC like Clive Justice (11) who got his CompTIA A+ in Computer Science.

We march through each day towards equity, like Latino's In Action Representative J.C. Murillo (10) who brought cultures together by coordinating community events.

And then we share laughs, homework, and memories, like Meher Sandhu (09) always had a smile on her face as she high-fived friends and strangers alike in the halls...

3. on guard Nolan Braband (12) demonstrates an impressive dive. *photo by olivia maddox*

We push ourselves farther and we break the molds casted for us when we recognize and celebrate what makes us unique.

When we let ourselves remember who we want to be, we learn so much more about ourselves.

When we let others into our lives, we learn so much from everyone around us.

We leave tracks in the mud for the generations of cubs to follow, clearing a path through memories of adversity and monuments of self-discovery.

Together, we recognize that behind every picture is a moment: a snapshot of a compassion, a second of realization, and the start to so much more.

1888

Littleton has history as old 1859, where the Gold Rush brought explorers and entrepreneurs new opportunities.

1942

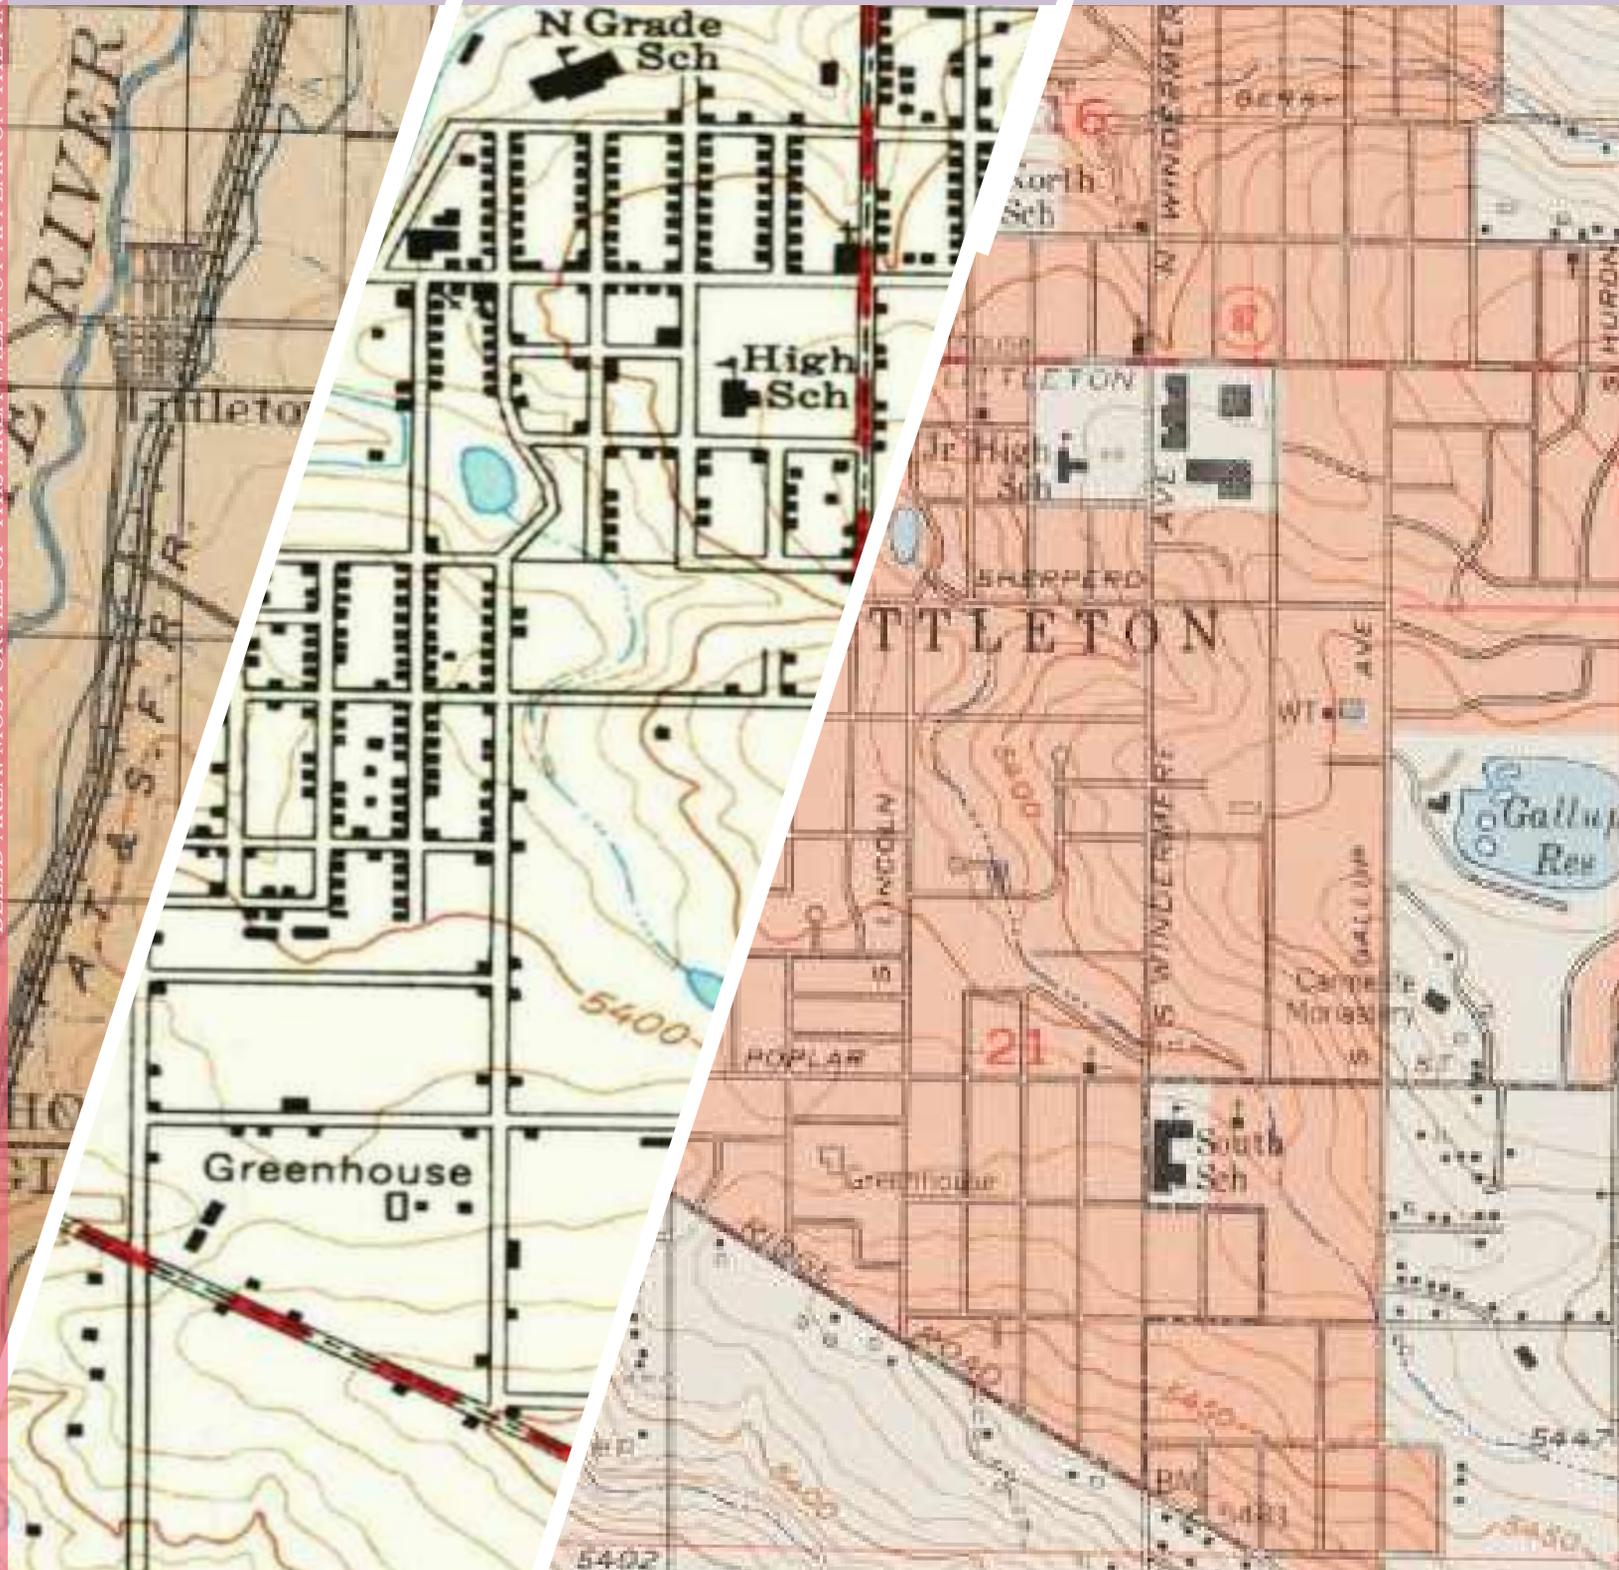

Littleton was first founded in 1920, serving 225 students. In 1935, funding was received to construct three new wings for a growing student population.

1957

From 1956-1958, the building was converted into Grant Junior High School and the modern Littleton High School was completed in 1956.

The showing of the Barbie movie even brought out some strong emotions from Lily Bunting (10), Cecelia Erwood (10) and Fiona Morrison-Price (10). "I was really sleepy and the Barbie movie destroyed me because Barbie's story on womens issues was so compelling," Bunting said.

Marisa Pohlman (11) participated in a photo shoot following her attendance to the Barbie movie with her friends. She drew her inspiration from watching the trailers to the movie, and the pink cowboy hat was a clear reference to the style of the main Barbie in the movie. "We had the best time dressing up and getting together to see the movie and it was the most supportive and great environment," Pohlman said.

& now a barbie

[Empty rectangular box for additional information]

Even the teachers joined in on the Barbie fun. As a department, the science teachers, even department mascot Doug the Skeleton, got all dressed up in that signature Barbie pink in combination with lab coats showing their love for the movie and science at the same time.

a craze for the newly released barbie movie swept across the lhs population

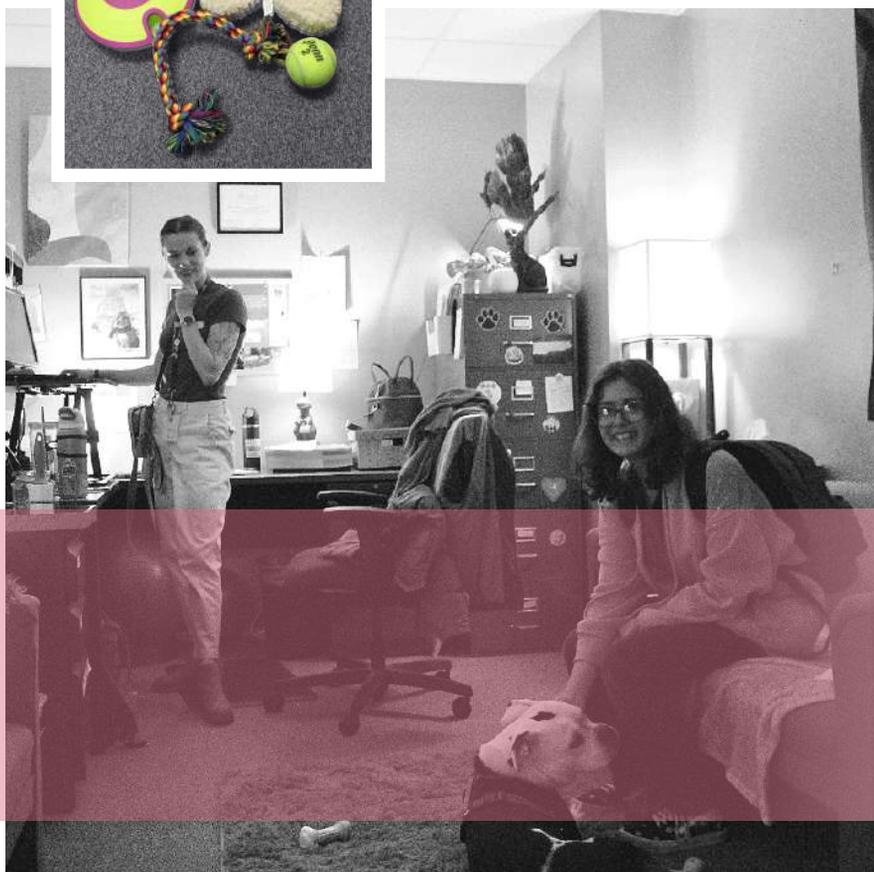

ie world

& now

Born in July 2021 in Texas, Dottie Lou's journey to greatness began. She was a stray pup on the streets when she was adopted by Mrs. Kuttler and brought to Colorado. Dottie is more than just a dog. She has been specially trained and now is Littleton High School's very own therapy dog.

dutiful dottie

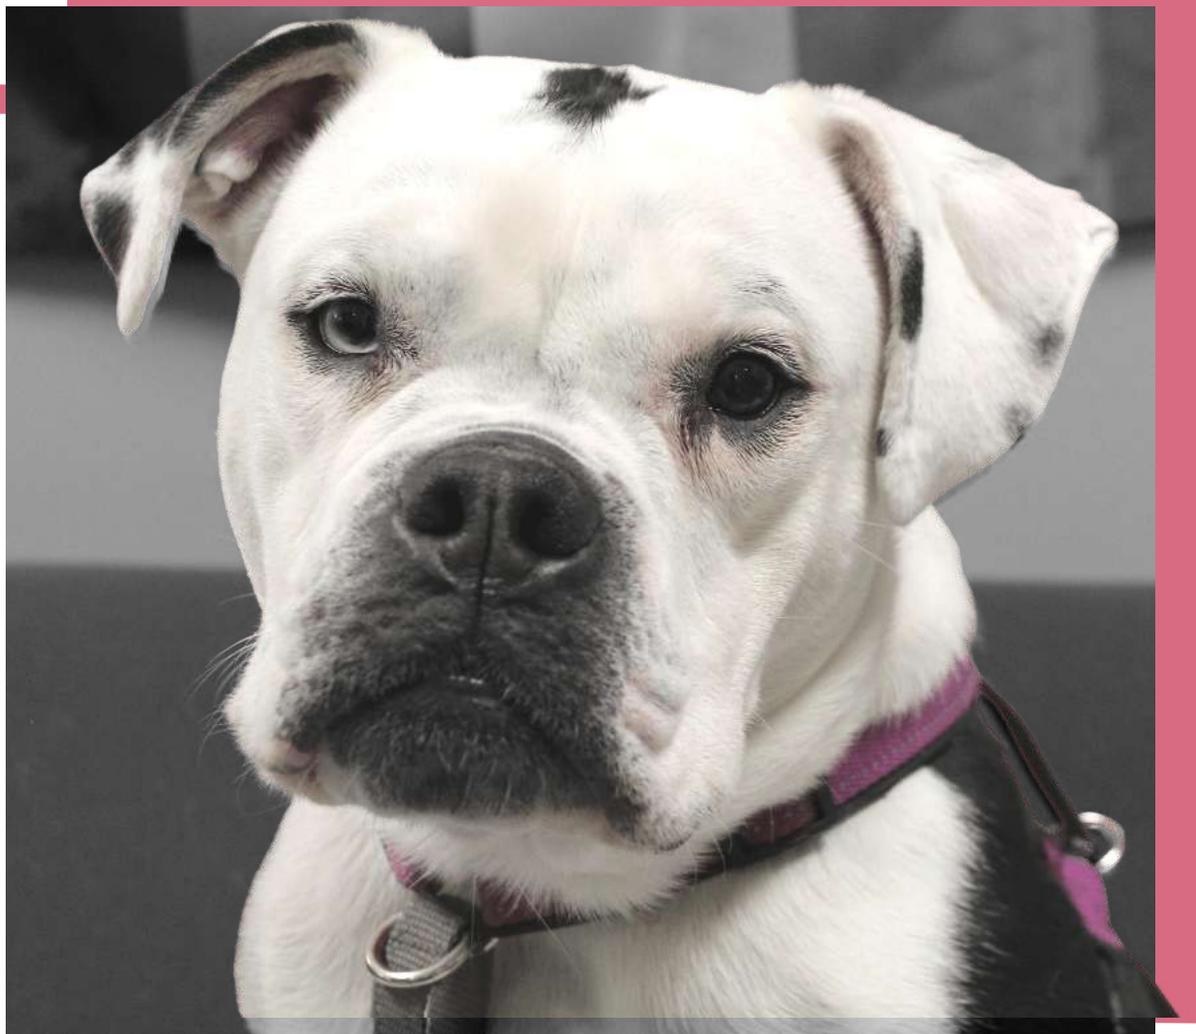

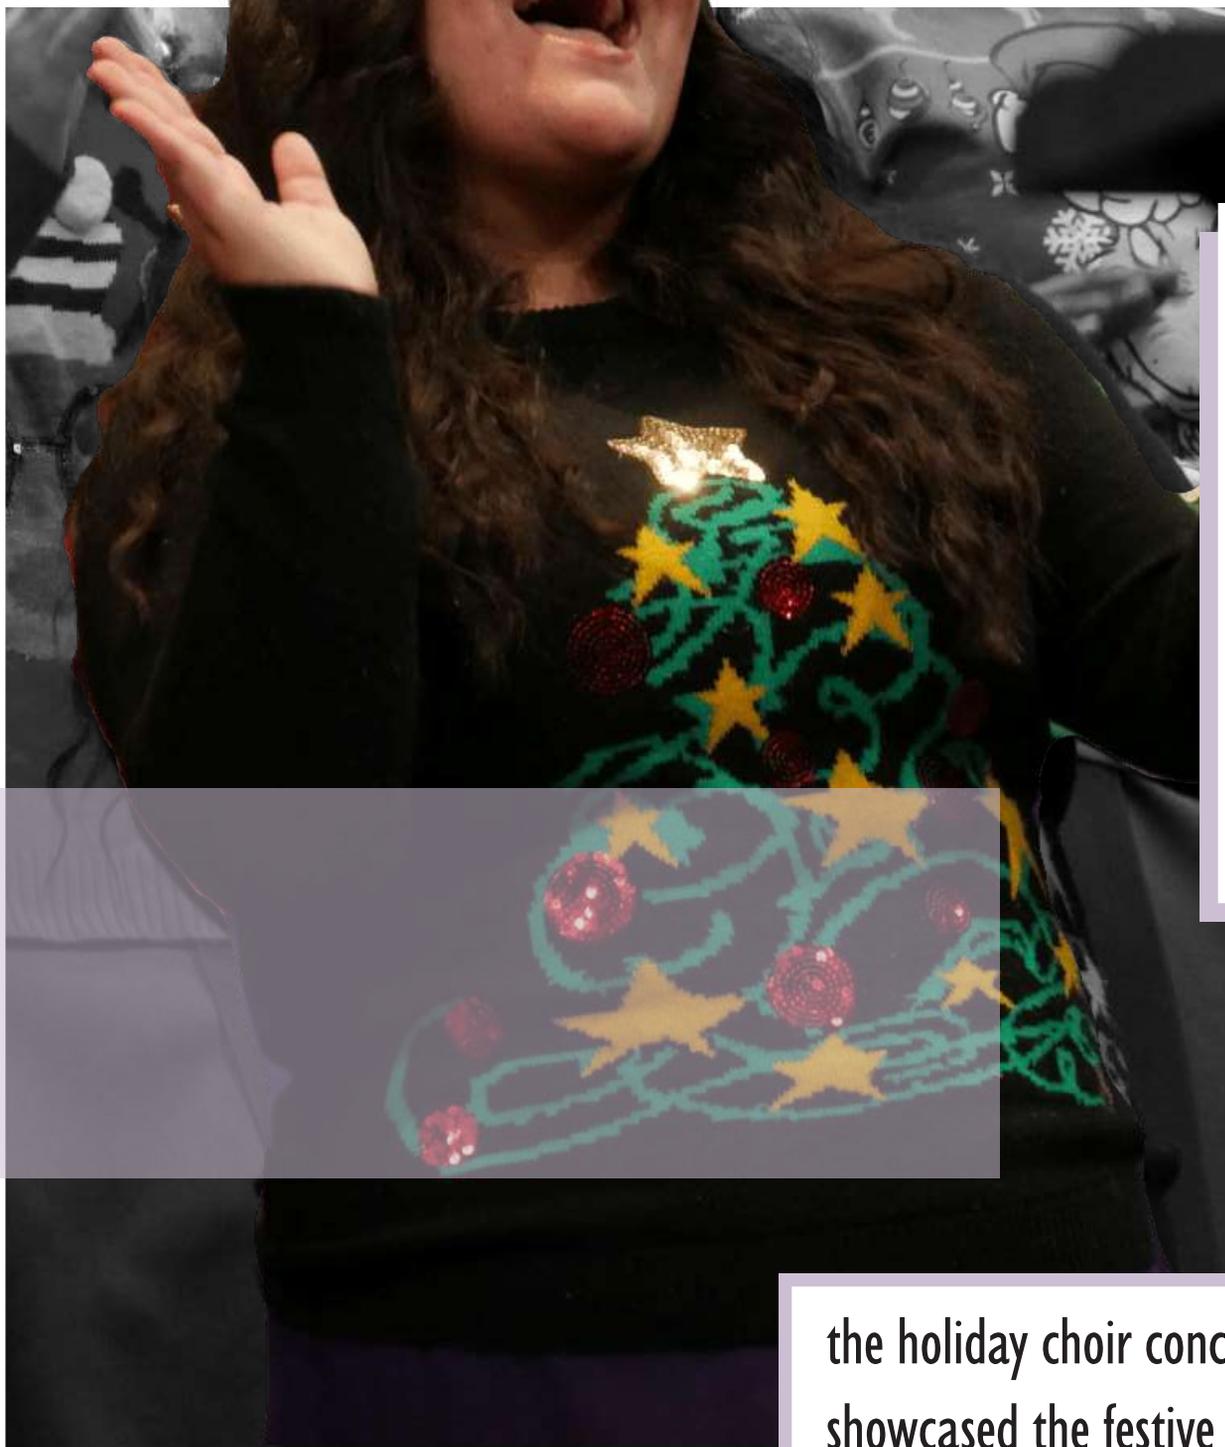

Every Tuesday, Dottie shows up to work among the rest of the school faculty. But between brightening students days, Dottie enjoys playing tug of war, solving treat puzzles and taking naps. When asked her opinion of this, Dottie ignored the question in favor of finding more treats.

Ihs has a new staff member... and she walks on four feet

“Dottie allows for the opportunity to make kids feel joy in their everyday school experience in a that people don’t normally get. A fun or light- hearted moment in a stressful week or life. The way Dottie can make them smile and laugh can make the difference between a good and a bad day,” Mrs. Kuttler said.

the holiday choir concert showcased the festive cheer and talented voices

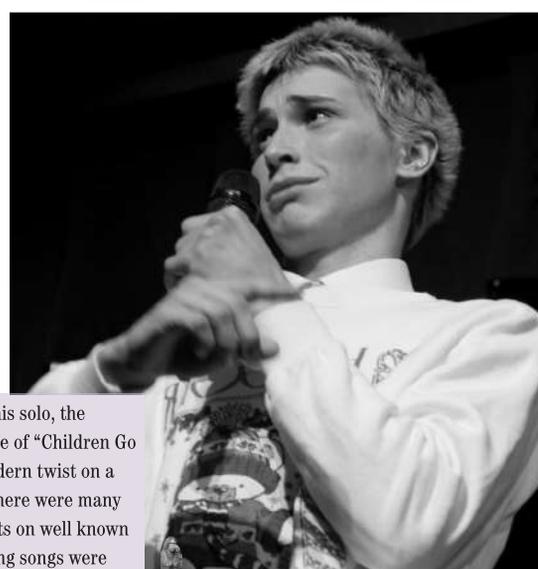

Aida Rasoli (12) spreads festive cheer proudly wearing her holiday sweater. "Singing in the holiday concert was fun and a little sad because it was my last winter choir concert. But all the songs were so fun, especially our version of 'The 12 Days of Christmas' which seemed like a crowd favorite," recounted Rasoli. *photo by katje anthamatten*

[Empty rectangular box for additional information]

Raina Smith (10) and Adalia Garrison (12) take part in the Women's Ensemble and LHS Syrens choirs to deliver an especially joyous rendition of "Carol of the Bells." Garrison commented on learning this song, "Although it was the easiest lyrics to memorize, it was still hard to sing it in a different style than I was used to. But over all it was way cooler to sing. I especially love the soprano and alto split at the beginning and at the end. This song was truly joyous." *photo by katje anthamatten*

Griet Hazen (10), Victoria Chang-Nunley (10), Clara Hrouda (11), Autumn Fahn (10), and Johanna Shepela (10) contribute to the combined force of all five LHS choirs to deliver a truly classy performance of the song "Silent Night". *photo by katje anthamatten*

Charles Craver (12) sings his solo, the surprising rap in the middle of "Children Go Where I Send Thee" - a modern twist on a traditional holiday song. There were many songs that put similar twists on well known melodies. These foot tapping songs were well received by their adoring audience. *photo by katje anthamatten*

sing every now & then

Kate Loving (12) and Gabriela Leonard (12) take a moment to point out an object of interest on the horizon. "I was just standing outside school and I looked over and saw a goose eating a Burger King Double Whopper. It was wild," Loving said.

Autumn Fann (10) puts in overtime as she takes advantage of the sunny weather to perfect her Color Gaurd technique. "I like practicing because it's always a good chance to decompress when school is stressful and I can just release a bunch of energy before the second half of my day," Fann said.

Natalie Borrego (11) finds a new perspective among the trees on the front lawn. " I don't like snow and but love trees. I'm quirky like that." Borrego said.

& *now* outdoor antics

BLEED AREA: MOST OR ALL OF THIS AREA WILL NOT APPEAR ON THE FINISHED PAGE

Dakota Bruton (11) and Kayden Buhler (11) set foot outside after a long day at school. With the change of an extra 14 minutes of the school day, students were still adjusting late into second semester.

Sometimes it's hard to remember the people we were. As individuals, we don't give credit to the version of ourselves that pushed through last semester, last month, or even last week. And yet, every day is a testament to the individuals we're becoming and the story that we're sharing, growing together as a pride...

An eager start to the rewarding season ahead, Morris was determined to make this first race of the season as important as if it was his last. *photo by samantha denman*

& then

there's leaders like Unified Athletes Laurence McNally and Evan Adams who smile at everyone on and off the court to participate in as many activities as they could.

There's artists like Emily Bjornebo who spent hours in her classes perfecting expressing the emotions of others and State Wrestling Finalist Luke Suro who pushed himself to leave a legacy for others to follow. We are

more than

the obstacles set before ourselves like Joey Cassidy-Creese who joined Latinos in Action and always showed up to work with students learning to read at Field Elementary, and Xiomara Garcia Morales, who devoted hours to the library to help others succeed. Our lives go

beyond

that of students. We're the friends that show up to class each day with Dutch Bros in lieu of our bygone Sipp regiments. We're the classes that spend as much time pouring over text books as spilling the tea in the back and forming life long connections. We are more than forgotten pasts and unknown futures; more than complicated GPAs and irritating new hall pass mandates- we're more than individuals, embracing a world bigger than ourselves.

We're lions...

BLEED AREA: MOST OR ALL OF THIS AREA WILL NOT APPEAR ON THE FINISHED PAGE
