THE FUTURE IS NOW BRIDGE AND BETTER. Our 4th graders took a trip to the future with their 3D printed models of the future. They got to imagine what the future would be like and what it would be like to live in the future. They got to imagine what the future would be like and what it would be like to live in the future. 1. PLAY TO WIN Preparing for a fight Harper Conn (7) participates in lunch room games. On Fridays Mr. Risdon sets up games for lunch. "I really like getting to play games in the lunchroom on Fridays because for me it brings people from different teams and grades together and gives us something to look forward to," Conn said. 2. EYE ON THE PRIZE Reaching out for a prize Manveer Maan(8) tries to catch a necklace at the pep rally. "I liked the pep rally because we got to leave school and watch basketball and get prizes." Cresthill's Assistant principal Mrs. Chambers organized a pep rally for the students that got many people involved.
