"I like pajama pants because they're super chill. When I'm tired in the morning, they are easy to put on and then I'm comfortable all day."
— Ryder Matz (9)

"I like to wear flannel shirts because they are warm and comfortable. I wear them almost every day."
— Eli Eshelman (9)

"I like Uggs because they're easy to put on. I'm wearing them today because they were the closest thing to my door on the way out."

Confessions from students who love to spend

PICTURE PERFECT
Holding multiple shopping bags, Livia Baldwin (10) poses for a photo. "My favorite place to shop is Amazon because they have everything," Baldwin said. "I usually shop online and buy clothes and random stuff."

"I love thrifting! I spend way too much money, like \$50 every

month thrifting, and like 90% of my clothes are thrifted. I like to look for things with interesting textures... and cheap leather is always, in my opinion, a good find."

— Bella Schnepf (12)

"I love shopping online at a store called Cider, because they have really cute clothes. I also shop on Amazon when buying things in bulk. I have this terrible habit of always buying more pants than shirts... but somehow I still never have enough pants to wear. I used to spend around \$200 a month, but I've been trying to spend less recently."

— Sage Seeley (11)

"My favorite place to shop is Target. I prefer to shop in person more, so I usually go once or twice every month. I love to buy stuff like makeup and clothes even though they are both things I don't need... I used to spend a lot of money every month at Target, but recently, I have been getting a lot better."

— Sydney Hillestad (12)

Dominic Spacone sports unique style

I like fashion. I think that outfits are a method of self-expression and tell other people who you are as a person. Personally, I like to put outfits together using pieces you usually wouldn't see together, which is fun because you can do so many different things with that. I think that I'm a fun person, so my outfits tend to lean on the 'more fun' side, but it's cool how people can make what they want out of their outfits. If you're like, "I don't want to try today," then you don't have to, but if you want to, you can go all out, which I think is freeing. Most everything I wear is second-hand... I usually shop at thrift stores because it's fun that you have to 'make do' with what you are given. Nothing is going to fit perfectly, but it's not supposed to, which I think just adds a layer of creativity and character.
