Jackie Woods

"When I came to Eagle Valley freshman year I think we had a really good positive senior class.. Once I got to senior year I wanted to be as awesome as a class as they were which has really helped shape me as a person."

Brooke Griffin

"I learned to really enjoy writing and cooking and just, like, there wasn't anything specifically I learned about myself, but I learned to just enjoy time by myself, and that I didn't have to fill my time with other people or doing things outside the house all the time."

Ms. Weibel

"The biggest lesson I learned was to keep my mouth shut and learn from those who knew more than I did regardless of their rank or age. You may know something that I don't know anything about, and if I keep my mouth shut I will have a chance to learn from you."

“I like the purity of high school athletics. There's something really really nice about the fact that nobody has a massive scholarship to be doing this. Nobody's being paid millions of dollars to do it. You guys are getting up and going to practice every day because you love your sport and it's really cool.”

Amy Wheeler
Athletic Trainer

“It's really easy for me as you know and an old guy who has been through it all to stand up here and have certain expectations of the way the work is, but it sometimes is easy to lose track of what it really is to be a high school student.”
